

Member Services

We offer our members a range of services that help improve the efficiency of projects within the engineering construction sector, leading to more transparent and effective industry relations.

ECIA are a signatory to the NAECI, which provides members with access to an effective and transparent "off the peg" employment framework that aids you in achieving programmes safely, on time and on budget

- Unrestricted access to the complete package of terms and conditions for a safe and productive workforce
- A framework to drive and support stable Industrial Relations
- Welplan welfare benefits
- Tax dispensations around travel and lodging (i.e. tax-free payments agreed with HMRC)

We have dedicated professionals to help prevent and resolve disputes related to industrial relations

- Advice and guidance on all aspects of employment
- Dedicated support on industrial relations issues from regional specialists
- Representation at Dispute Resolution and Dismissal appeal meetings

We facilitate platforms to help members shape the industry whilst establishing the right industry connections

- Coordination and representation of members' interests
- Networking with relevant decision-makers through ECIA's relationship with key stakeholders
- Opportunity to influence industry standards and strategy
- A chance to participate in specialist Committees, Councils and Work Groups that help to shape the industry
- Promotion and sharing of our members' achievements via our media platforms

We monitor the industry and help you stay up-to-date with the latest intelligence

- Regular briefings and communiques detailing legislative and industry developments
- Informative newsletters
- Online member directory
- Practical and industry-relevant presentations and seminars

Sign up for our exclusive member newsletter to stay updated with the latest news in the engineering construction industry, ECIA member news, IR topics and NAECI updates.

ENGINEERING CONSTRUCTION INDUSTRY ASSOCIATION

The ECIA is a member-led association that provides a collective voice for employers within the Engineering Construction Industry. The Association works with all stakeholders to promote good Industrial Relations and a safe, productive working environment. It is underpinned by the NAECI, an effective and transparent framework that helps members achieve their program safely, on time and on budget.
